

RCIA REFLECTIONS

Dawn Paglia:

"I have so many great things to reflect on regarding RCIA however, I will try to keep my comments short and straight to the point. When I decided to take the journey and explore Catholic faith through RCIA, I never expected so many great things would have come from it. Each and every one of the people involved in this class, in their own unique ways, helped me and my three children through our journey of faith and they continue to do so! There is so much to learn about the faith and this is the course to teach it! We are honored to name every one of the participants as our friends and part of our new family. I do believe that this class is a must for people that have left the faith and want to reunite and also for people that have never been baptized however; I also believe that this class would be beneficial for people that still attend mass every week but would like to grow closer to God. One last thought I would like to add; the evening of our baptism can be marked as one of the best experiences of my life! The people of St. Theresa really made us feel like part of their family and the ceremony was absolutely beautiful. Thank you to everyone!!"
